

AI Campus

The Learning Platform
for Artificial Intelligence

Workload:
12 hours

RECORD OF ACHIEVEMENT

Berlin, 25.03.26

Michael Bacher

has successfully participated in:

Foundations of Artificial Intelligence II: Search Algorithms

Learning outcomes

- Understand and explain systematic, heuristic, local, and stochastic search algorithms
- Be able to select and evaluate a search algorithm to solve a search problem
- Be able to apply and implement these algorithms to solve search problems occurring in practice
- Analyze and model practical problems that can be solved as a search problem

By completing the exercises and achieving at least 60% of the total points in this course, the requirements for obtaining the certificate have been fulfilled.

Total result

100,00 % of all possible scores

Florian Rampelt
Office Manager, AI-Campus
