

AI Campus

The Learning Platform
for Artificial Intelligence

Workload:
12 hours

RECORD OF ACHIEVEMENT

Berlin, 28.02.26

Michael Bacher

has successfully participated in:

Foundations of Artificial Intelligence IV: Knowledge Representation and Ontologies

Learning outcomes

- Be able to distinguish different types of knowledge and understand the foundations of conceptual knowledge representation, the semantic web and knowledge graphs
- Be able to apply ontology languages and reasoning services to model ontologies
- Understand the basics of the ontology query language SPARQL
- Assess and discuss limitations of ontology representations when dealing with exceptions and non-monotonic reasoning.

By completing the exercises and achieving at least 60% of the total points in this course, the requirements for obtaining the certificate have been fulfilled.

Total result

100,00 % of all possible scores

Florian Rampelt
